BILL'S QUICK GUIDE TO FINDING MAPS AND DATA ONLINE
A world of wonders awaits

This is not meant to be an exhaustive list! It does not include special projects for particular topics or regions, and I'm sure there are many other resources out there that I don't know about. Please let me know if you find anything amazing that should be included.

I've also had good success just using Google image search (especially for post-1923 maps).

Scanned Maps Online (especially for pre-1923 maps and others out of copyright)

David Rumsey Collection:	http://davidrumsey.com
New York Public Library:	http://digitalcollections.nypl.org
	http://www.nypl.org/node/80186
